Quick start guide for webmasters

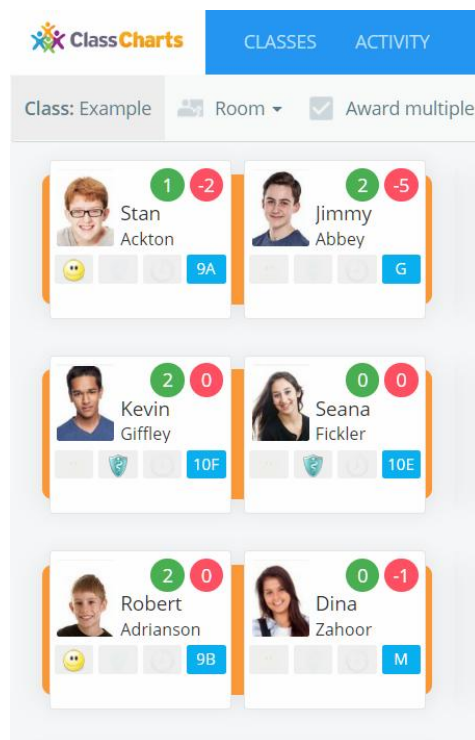

Getting started with Class Charts

Class Charts is an online [behaviour management](#) platform that allows teachers to manage their seating plans, monitor in-class behaviour, set and collect homework tasks and so much more.

This quick start guide will show you how to set up [Class Charts login portals](#) for teachers, parents and pupils on your school website.

Depending on the Class Charts license that your school has purchased, this guide will also show you how to display a [homework calendar](#) through your school website.

If you are unsure on which license type you are using, please [check with the main school admin](#) on your school's Class Charts account.

Follow the steps below to add the public homework calendar to your school website:

1. Click on the [three lines menu](#) in the top right hand corner of Class Charts.

2. Select [School Settings](#) from the list of available options.

3. Click on the [Homework](#) section in the left hand side navigation menu.

4. Use the [public school calendar URL](#) or the [iFrame implementation](#) provided.

Login shortcuts for desktops

You can boost Class Charts' usage at your school even further by adding a [shortcut](#) to Class Charts on your school's computer desktops. Follow the steps below to create a shortcut using [Google Chrome](#).

1. Click on the [three dots menu](#) in the top right hand corner of your Chrome browser.

2. Mouse over the [More tools](#) option in the drop down menu and select [Create shortcut](#).

3. Enter a name for the new shortcut and click on the [Create](#) button.

4. The shortcut to Class Charts will now appear on the [Desktop](#).
